Notification Change

DIRECTIONS FOR USE:

For controlling algae in industrial and farm ponds, dissolve the product in water and apply to the water surface as a spray, at the rate of 6.5-9.0 kg per hectare in water bodies with a depth of 1 meter. This will result in a concentration of copper sulphate of 0.5-0.7 mg/L. The rate should be adjusted according to the depth of the water.

NATURE OF RESTRICTION:

This product may be used only in the manner authorized; contact local pesticide regulatory authorities about use permits which may be required.

RESTRICTED USES

WHERE TO APPLY:

Cuprose can be used for control of algae in municipal water supply reservoirs (bodies of water that may be used as potable water source, but before it is purified for drinking purpose). Do not apply or allow discharge to lakes, flowing water or ponds with outflow. Do not apply to areas frequented by wildlife.

HOW TO APPLY:

Dissolve the product in water and apply to the water surface as a spray, at the rate of 6.5-9.0 kg per hectare in water bodies with a depth of 1 meter. These rates will result in a concentration of copper sulphate of approximately 0.5-0.7 mg/L. Adjust the application rate in accordance with the depth of water.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Cuprose can cause skin and eye irritation. Avoid eye contact. This material is abrasive, may cause severe eye damage if not treated immediately by flushing eyes with water for at least 20 minutes. Do not take internally. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wear goggles and rubber gloves when handling.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

FIRST AID:

Wash skin with soap and water for at least 15 minutes. If contacted with eyes, flush with water for at least 20 minutes. A doctor should be consulted for any accident involving the eyes. If ingested, rinse mouth with water and give large quantities of water to drink. Induce vomiting and give more water to drink. Obtain medical attention immediately. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

CAUTION:

This product is toxic to fish and other aquatic animals. Do not apply or allow discharge to lakes, flowing water or ponds with outflow.

DISPOSAL:

For Porta-Feed System: 1. Close valve. 2. The Porta-Feed System may be returned to the point of purchase (distributor/dealer). It must be refilled by the distributor/dealer with the same product. Do not reuse the Porta-Feed System for any other purpose. For Other Containers: 1. Triple or pressure rinse the empty container. Add the rinsings to the treatment site. 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. 3. Make the empty container unsuitable for further use. 4. Dispose of the container in accordance with provincial requirements. 5. For information on the disposal of unused, unwanted product, contact the Provincial Regulatory Agency or the manufacturer. Contact the Manufacturer and the Provincial Regulatory Agency in case of spill and for cleanup of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
