NeoSan is a cleaner disinfectant and sanitizer designed for general use in schools and light industrial applications. When used as directed, NeoSan is formulated to disinfect inanimate hard surfaces (such as walls, floors, sinks, tops, toilet bowls, tables, chairs and telephones). For large areas, such as restrooms, the product is designed for both general cleaning and disinfecting. In addition, NeoSan deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowels and any other areas which are prone to odours caused by micro-organisms.

DISINFECTION: NeoSan exhibits effective disinfectant activity against Salmonella choleraesuis, Staphylococcus aureus and Pseudomonas Aeruginosa organisms for hard inanimate surfaces (such as walls, floors, table tops). Dilution Rates: General Disinfection: Add 15 mL NeoSan per L of water. Disinfection: Add 24 mL NeoSan per L of water. Efficacy tests have demonstrated that NeoSan is an effective Bactericide and Fungicide in the presence of organic soil (5% Blood Serum). Toilet Bowls: Add 75 mL NeoSan prevents and controls mold and mildew and the odours they cause on hard non-porous inanimate surfaces (such as walls, floors, table tops). Add 15 mL NeoSan per L of water. Repeat application at weekly intervals or when mildew growth reappears.

SANITIZATION: To sanitize previously cleaned and rinsed non-porous surfaces, prepare 200 ppm active quaternary NeoSan solution by adding 6 mL NeoSan per L of water. To sanitize immobile items (such as tanks and counter tops), flood the area with 200 ppm NeoSan solution or apply with a wet cloth or sponge, making sure to wet all surfaces completely for at least 60

seconds. Let air dry. Prepare a fresh solution for each use. To sanitize mobile items immerse in 200 ppm solution for at least 60 seconds, making sure to immerse completely. Prepare a fresh solution daily or more frequently as soil is apparent.

PRECAUTIONS: Hazardous to Humans and domestic animals. Keep out of reach of children. Causes severe eye and skin damage. Do not get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food. DANGER: Corrosive to eyes.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 5 minutes. For eyes call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatine solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contra indicate the use of gastric lavage. Measure against circulatory shock respiratory depression and convulsion may be needed.

STORAGE: Do not contaminate water, food or feed by storage and disposal. Storage: Store in dry place no lower in temperature than 10 or higher than 50'C.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Environment Canada.
5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.
