EQUINE LICE DUSTER

DIRECTIONS FOR USE:

HORSES: For the control of Lice, Fleas, Horn Flies and Winter  
Ticks, dust the entire animal thoroughly using not more than  
500 grams of dust per head. Repeat if necessary, but not more  
than twice weekly. For Louse control, repeat at intervals of 14

to 18 days.

CAUTION: Do not exceed dosage given above.

PRECAUTIONS: Harmful if inhaled or swallowed. Do not take internally. Avoid unnecessary skin contact and inhalation of dust. Wash hands after use and before eating or smoking. Take a shower or bath after work. Wear regular long-sleeved work clothing. Change to clean clothing daily. Avoid contamination of feed, foodstuffs, feeding trough and watering receptacles. Keep out of reach of children. TOXIC TO BEES: To not use where bees are foraging.

DISPOSAL: Empty container thoroughly. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements.

For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Conservation and Protection, Environment Canada.

FIRST AID: If swallowed, give one or two glasses of water, then induce vomiting by tickling back of throat. Get medical aid. If in eyes, flush thoroughly with plenty of water. If on skin, wash thoroughly with soap and water. If irritation develops or persists, consult physician.

TOXICOLOGICAL INFORMATION: Carbaryl is a moderate, reversible, carbamate cholinesterase inhibitor. Atropine is antidotal. Contact physician at poison control centre.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
