NOTICE TO USER : This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NATURE OF RESTRICTION : For sale only to pest control operators, farmers, and to persons authorized in government approved pest control programs where the vendor maintains a record of sales including name, address and signature of the purchaser together

with the quantity of the product purchased.

DIRECTIONS FOR USE : THIS BAIT IS TO BE USED ONLY TO CONTROL POCKET GOPHERS IN A MECHANICAL HAND PROBE GOPHER GETTER. Remove empty container and turn hand probe upside down and screw new bottle of bait up into dispenser. Probe for runway as described on machine's instructions label.

PRECAUTIONS : Do not contaminate feed and foodstuffs. Keep away from children and domestic animals. When empty, all containers and all grain fragments must be burned or buried deeply. May be fatal if swallowed. Baits should be placed in areas inaccessible to children, pets, wildlife and domestic animals or in tamper proof bait boxes. This product is toxic to wildlife. Treated seeds exposed on soil surface may be hazardous to birds and other wildlife. All placements of bait must be made under existing or induced cover of brush or weeds.

FIRST AID INSTRUCTIONS : If swallowed, call physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

DISPOSAL : For information on the disposal of unused, unwanted and the cleanup of spills, contact the regional office of Conservation and Protection, Environment Canada.

TOXICOLOGICAL INFORMATION

SYMPTOMS OF POISONING : convulsions, hyperflexia, heightened, acuity to prehension, body arches, fist tightly clenched, jaw (trismus), eye protrude fixed stare, breathing ceases and deep cyanosis, perspiration, and relaxation of symptoms, (1-10 attacks usually occur between death or recovery).

ANTIDOTE AND TREATMENT : After stopping convulsions and after the reflex irritability has been suppressed, a gastric lavage of dilute potassium permanganate (1:5000) is best.

LIMITATION OF WARRANTY STATEMENT : Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
