PRECAUTIONS: Harmful or fatal if swallowed. Corrosive. Causes eye burns and skin irritation. Avoid breathing vapour or mist. Use with adequate ventilation. Do not get into eyes, on skin or on clothing. Immediately remove contaminated clothing and wash before reuse. Wash thoroughly after handling. Wear rubber gloves, splash proof chemical goggles and face shield when handling.

Do not use in potable water systems in food plants. Do not allow water in treated systems to come into contact with beverage.

Thoroughly drain bottles of beverage subsequent to the pasteurization process.

STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with organic matter or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to the eyes, lungs and mucous membranes.

FIRST AID: In case of contact with skin, wash immediately with

plenty of soap and water. Immediately contact physician.

In case of contact with eyes, flush eyes immediately with plenty of clear water for at least 15 minutes and immediately contact a physician.

In case of ingestion, immediately contact a physician. Do not induce vomiting. Drink large quantities of milk, or gelatin solution or, if these are not available, drink large quantities of water. Do not give vinegar or other acids.

In case of inhalation, immediately remove affected person from contaminated area to fresh air. Immediately contact a physician.

ECOLOGICAL: This product is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with local regulations. Do not contaminate water by cleaning of container and equipment or disposal of wastes. Apply this pesticide only as specified on the label.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Environment Canada.
5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.

DIRECTIONS FOR USE

FOR USE IN RECIRCULATING COOLING WATER SYSTEMS AND BREWERY PASTEURIZERS. NOTE: This product degrades with age. Use a chlorine test kit and increase dosage as necessary to obtain the required level of available chlorine.

For the control of bacteria, algae and fungi, add Slimicide C-70 to the tower basin, distribution box or some other point to insure uniform mixing.

INITIAL DOSE: When the system is noticeably fouled, add 0.06 to 0.12 kg/1000 L of water in the system to achieve 7.5 to 15.0 mg/L available chlorine by weight. Repeat until control is achieved.

SUBSEQUENT DOSE: When microbial control is evident, apply 0.03 to 0.06kg/1000 L of water in the system to achieve 3.25-7.5 mg/L available chlorine by weight. Apply treatment weekly or as

needed to maintain control.

Badly fouled systems must be cleaned before treatment is begun

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

FOR INDUSTRIAL USE ONLY. Technical advice regarding specific site problems is available from BETZ.
