**DIRECTIONS FOR USE: FOR FOOD PLANT AND OTHER INDUSTRIAL USE.**

OASIS 499 is a proven "one-step" disinfectant-cleaner-sanitizer-fungicide-mildewstat-virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply OASIS 499 to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain, and bedframes with a cloth or mop so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

**DISINFECTION:** To disinfect hard non-porous surfaces, add 4mL/L water. Treated surfaces must remain wet for 10 minutes. At this level, OASIS 499 is also virucidal and fungicidal.

**SANITIZING:** To sanitize non-porous non-food contact surfaces, add 1 mL/L of water. Treated surfaces must remain wet for 60 seconds.

**4mL/L Use-Level:** The broad spectrum activity of OASIS 499 has been evaluated and found to be effective against the following organisms by the OASIS Use- Dilution test:

|                             |                          |
|-----------------------------|--------------------------|
| Pseudomonas aeruginosa      | Staphylococcus aureus    |
| Salmonella choleraesuis     | Escherichia coli         |
| Streptococcus pyogenes      | Klebsiella pneumoniae    |
| Enterobacter aerogenes      | Salmonella schotmuelleri |
| Streptococcus faecalis      | Shigella dysenteriae     |
| Brevibacterium ammoniagenes | Salmonella typhi         |

**AOAC FUNGICIDAL TEST:** OASIS 499 is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

**Mold and Mildew Control:** At 4mL/L OASIS 499 will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as directed above). Allow to dry on surface and repeat when mildew growth returns.

**VIRUCIDAL PERFORMANCE:** At 4 mL/L use-level OASIS 499 was evaluated and found to be effective against the Influenza A/Brazil Virus on inanimate environmental surfaces.

**Sanitizing: Non-Food Contact Surfaces (such as floors, walls, tables, etc):** At 1 mL/L use-level, OASIS 499 is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumonia on hard non-porous environmental surfaces.

**Instructions for Cleaning and Decontamination Against HIV-1 on Surfaces and Objects Soiled with Blood or Bodily Fluids:**

This products is effective against HIV-1 (Human Immunodeficiency Virus) in hard water up to 400 ppm (CaCO<sub>3</sub>) and in the presence of organic soil (5% blood serum).

**PERSONAL PROTECTION:** When handling items soiled with blood or bodily fluids, wear disposable latex gloves, gowns, masks, and eye coverings.

**CLEANING PROCEDURE:** Thoroughly clean blood or bodily fluids from surfaces before applying OASIS 499.

**CONTACT TIME:** To kill HIV-1, apply OASIS 499 at 16mL for 4 Litres of water and allow surface to remain wet for 10 minutes.

**DISPOSAL OF INFECTIOUS MATERIALS:** Blood, bodily fluids, cleaning materials and clothing should be autoclaved and disposed of according to provincial and local regulations for infectious waste disposal.
