DIRECTIONS: Controls common insects and diseases on roses,
flowers and common garden ornamentals before they damage your
plants.

Keep plants, particularly new growth and upper and lower leaf
surfaces, protected throughout the growing season with a light
uniform coating. Start early for disease protection and repeat
at regular 7 to 10 day intervals. The best time to apply is

early morning or evening when the air is still. Do not apply when temperature is 24'C or higher. Avoid dusting open blooms. Insects controlled: Aphids, Caterpillars, Leafhoppers, Leafrollers, Roseslugs, Rose Chafers, Japanese Beetles, Spider Mites, Mealybugs, Tarnished Plant Bugs, Thrips, Leafminers. Diseases controlled: Black Spot, Leaf Spot, Powdery and Downy Mildew, Rust. PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Hazardous if swallowed, inhaled or absorbed through the skin. Avoid breathing dust and contact with skin, eyes and clothing. Do not contaminate feed or food. Do not use on food crops. Poisonous to bees. Avoid application to flower blossoms. FIRST AID: If swallowed, induce vomiting and get medical attention at once. If on skin, wash thoroughly with soap and water. If in eyes, flush with clean water for 15 minutes. If irritation persists, get medical attention. TOXICOLOGICAL INFORMATION: Malathion and carbaryl are cholinesterase inhibitors. ATROPINE is antidotal. DISPOSAL: Dispose of the empty container in regular garbage. Do not re-use container.
