AGRICULTURAL

For control of Aphids, Mealybugs, Spider mites, Whiteflies, Soft Brown Scale, Psyllids, Rose or Pear Slugs and Earwigs on vegetables, fruits, shrubs, trees and greenhouse plantings.

DIRECTIONS : Mix fresh solution made of selected soaps that kill insects on contact. Insects must be sprayed directly to achieve proper control. For whitefly use one part concentrate to 100 parts water. Spray all plant surfaces thoroughly at 2 week intervals. For other pests use one part concentrate to 50 parts water. For aphids and mealybugs repeat application as required. For spider mites apply once weekly for 2-3 weeks. For pear psylla in pear orchards apply 25 litres of water per hectare. (1:100 dilution) apply when insects occur and repeat as needed.

PRECAUTIONS : Concentrated soap may cause eye or skin irritation. Avoid eye contact. Do not use on sweet peas nasturtiums or delicate ferns. Wash fruits and vegetables before using.

FIRST AID : If in eyes wash with plenty of water if concentrate

on skin, rinse with water.

The active ingredients in this pesticide are specially selected soaps. No other pesticides are added.

NOTICE TO USER : This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
