BACK PANEL

Hagen Household Flea Spray kills fleas. It contains a combination of ingredients that kills both adult and pre-adult fleas. It prevents adult flea (biting stage) from emerging for 150 days (5 months) by preventing their development into the adult biting stage. Effective on fleas hidden in carpets, rugs, drapes, upholstery, pet bedding and floor cracks. Protects your home from flea buildup as well as your pets and family from bites. One treatment with this spray gives you continuous control of immature fleas for 150 days. Leaves no objectionable odor or sticky mess and if used as directed, does not stain furnishings.

Note: The degree of control may be reduced by heavy use, vacuuming, or shampooing of the carpet.

DIRECTIONS FOR USE: For spot and crack-and-crevice application only. Apply only to localized areas of flea infestation, such as pet bedding. **NOT FOR BROADCAST APPLICATION.**

SHAKE WELL. Hold can 60 to 90 cm from surfaces to be treated. When spraying, cover one square metre in approximately 35 seconds. Be sure to apply uniformly, using a sweeping motion to localized areas of carpets, rugs and all pet resting surfaces of upholstered furniture. Be sure to treat pet bedding as this is a primary hiding place for fleas. Do not spray on bedding of pets which are less than 12 weeks of age. No need to remove pet bedding after treatment. Treatment must only be repeated if pest problem reoccurs. Avoid wetting furniture and carpeting. **DO NOT TREAT PETS WITH THIS PRODUCT.** For effective flea control, pets should be treated with a registered flea control product designed for use on pets, and treatment of the pet should be combined with the sanitation of any area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters and surrounding areas prior to treatment with this product.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed or absorbed through skin. Do not breathe vapours or spray mist. Avoid contact with skin or eyes. Wash with soap and warm water after use. Wash contaminated clothing with warm water and soap before reuse. Avoid contamination of food and foodstuffs. Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Cover exposed food. Remove all pets and birds and cover fish aquariums before spraying.

PHYSICAL & CHEMICAL HAZARDS: Contents under pressure. Keep away from heat, sparks and open flames. Do not puncture or incinerate container. Exposure to temperatures above 50°C may cause bursting.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. If swallowed, do not induce vomiting because of aspiration hazard (contains petroleum distillate). Call a physician or Poison Control Centre immediately.

Take container, label or product name and P.C.P. Registration Number with you when seeking medical or veterinary attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: Store in a cool, dry place inaccessible to children. Keep container closed.

DISPOSAL: Do not reuse empty container. When container is empty, press valve to release all pressure. Wrap container. When container is empty, press valve to release all pressure. Wrap container in several layers of newspaper and discard in household garbage.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
