Busan 110WB Liquid Microbiocide is a water-based broad spectrum liquid microbicide.

DIRECTIONS FOR USE

PULP AND PAPER MILLS

For the control of bacterial and fungal slime, add Busan 110WB Liquid Microbiocide to the stock or white water at a rate of 25 to 500 grams per tonne of pulp or paper produced. Addition can be made intermittently or continuously, as required to control slime. Not for use in the production of paper or paperboard that comes into contact with food.

COOLING WATER SYSTEMS

For the control of algae, bacteria, and fungi in commercial and industrial cooling water systems, add Busan 110WB Liquid Microbiocide as follows:

Initial dose: 40 - 50 mL per 1,000 L water in the system.

Maintenance dose: Every 2 to 5 days or as needed, 5 - 25 mL per 1,000 L of water in the system.

PRECAUTIONS

DANGER KEEP OUT OF REACH OF CHILDREN

DANGER: POTENTIAL SKIN SENSITIZER. Corrosive, causes eye and skin damage. Harmful if swallowed. Wear a full-face NIOSH-approved respirator, chemical-resistant gloves, long pants, a long-sleeved shirt, safety shoes plus socks, a chemical-resistant apron and safety glasses or face shield during mixing/loading, clean-up and repair activities. Avoid contact with eyes, skin, clothing, or the contamination of food. Avoid breathing vapors. Users should wash hands and face before eating, drinking, chewing gum, and when using tobacco or the toilet. Users should remove clothing/protective equipment immediately if this product comes in contact with the skin through soaked clothing or spills. Then, thoroughly wash the skin and put on clean clothing. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with the concentrate of this product. Do not re-use them. Keep the container closed when not in use. Do not re-use the container. Destroy when empty.

Do not apply by open pouring of the liquid to cooling water systems; a metering pump is required for this use.

FIRST AID

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

Eye exposure: Flush with clean, cool water for at least 15 to 30 minutes or longer till irritation subsides. See a physician if irritation occurs.

Skin exposure: Wash with a mild soap and water. See a physician if irritation occurs. Remove and wash contaminated clothing (including shoes) before reuse.

Inhalation: Use proper respiratory protection to immediately remove the affected person from exposure. Administer artificial respiration if breathing has stopped. Keep at rest. Get prompt medical attention.

Ingestion: DO NOT INDUCE VOMITING. Rinse mouth with copious amounts of water or milk, first. Irrigate the esophagus and dilute stomach contents by slowly giving one (1) to two (2) glasses of water or milk. Avoid giving alcohol or alcohol related products. In cases where the individual is semi-comatose, comatose or convulsing, DO NOT GIVE FLUIDS BY MOUTH. In all cases, seek medical assistance or contact a Poison Control Centre IMMEDIATELY.

TOXICOLOGICAL INFORMATION: Note to physician: Probable mucosal damage following ingestion may contraindicate gastric lavage.

DISPOSAL

Do not reuse this container for any purpose. This is a recyclable container, and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Make the empty, rinsed container unsuitable for further use.

If there is no container collection site in your area, dispose of the container in accordance with provincial requirements.

For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.
