Algae-San is an algaecide recommended for the treatment of water supplies where algae and slime are a problem. Reduces the chlorine demand and keeps water clear and free of growing algae. Pool can be used immediately after application.

DIRECTIONS FOR REGULAR USE

1. Standard initial dosage - 125 ml of Algae-San per 10,000 L of pool water.
2. Regular weekly requirements - 60 ml of Algae-San for each 10,000 L.

DIRECTIONS FOR SWIMMING POOL ALGAE CONTROL

1. If algae growth is heavy, add up to 250 ml Algae-San for each 10,000 L of water to kill growth.
2. If algae growth is light or absent use 125 ml Algae-San for each 10,000 L of water.
3. When existing growth is dead, as seen by change in color of the water, clean pool by vacuuming. If necessary, partially drain and refill pool.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid contact with skin and eyes. Avoid contamination of food. Do not pre-mix with other pool chemicals. Do not mix with soaps, detergents or ammonia. Add directly to pool. Rinse empty container thoroughly with water and discard it.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, GET MEDICAL ATTENTION, if swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. GET MEDICAL ATTENTION.

TOXICOLOGY: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
