

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2012-1841
Application: Conversion - Submission to fulfill conditions of registration on a product with full registration
Product: Agriphage-CMM Technical
Registration Number: 30300
Active ingredients (a.i.): *Clavibacter michiganensis* (spp *michiganensis*) Bacteriophage (TOM)
PMRA Document Number : 2208552

Background

Agriphage-CMM Technical was first registered on May 2, 2012 for use in use-site category 5 (Greenhouse Food Crops). The registration condition was to address the data deficiency identified in the chemistry assessment.

Purpose of Application

The purpose of this application was to fulfill a condition of registration for Agriphage-CMM Technical.

Chemistry Assessment

The data submitted to address the deficiency identified under DACO M.2.10.2 *Analysis for Microbial Contaminants* successfully showed that microbial contaminants were not detected in five batches of product tested. No further data are required to address this data requirement.

Health, Environmental and Value Assessments

Health, environmental and value assessments were not required for this application.

Conclusion

The PMRA has conducted a review of the available information and has concluded that the outstanding condition has been fulfilled.
