Evaluation Report for Category B, Subcategory 3.8 Application

Application Number: 2009-2991
Application: Changes to product label: re-entry interval
Product: Maverick III Herbicide Solution
Registration Number: 28977
Active ingredient (a.i.): Glyphosate (present as dimethylamine salt)
PMRA Document Numbe: 2268673

Purpose of Application

The purpose of this application was to amend the re-entry interval (REI) statement for non-crop uses on the Maverick III Herbicide Solution label to include “or until sprays have dried”.

Chemistry Assessment

A chemistry assessment was not required for this application.

Health Assessments

No post-application risks of concern to glyphosate are expected from non-crop use of Maverick III Herbicide Solution on the day of application. Given the specific post-application tasks required in non-crop areas, amending the REI statement to include “or until sprays have dried” for non-crop applications is not expected to result in unacceptable risks to workers.

Environmental Assessment

An environmental assessment was not required from this application.

Value Assessment

A value assessment was not required for this application.

Conclusion

The PMRA conducted an evaluation of the subject application and determined the proposed label amendment is acceptable.
