

Evaluation Report for Category B, Subcategory 4.3 Application

Application Number: 2007-5722
Application: Amendment
Product: Pantoea agglomerans strain C9-1 Technical
Registration Number: 28391
Active ingredients (a.i.): *Pantoea agglomerans* strain C9-1 [PAA]
PMRA Document Number: 1664735

Background

Pantoea agglomerans strain C9-1 Technical is currently conditionally registered in Canada. The toxicological database is complete. The outstanding data requirements for the technical product pertain to the development of a strain-specific identification method for *Pantoea agglomerans* strain C9-1.

Purpose of Application

The purpose of this application is to convert the registration of Pantoea agglomerans strain C9-1 Technical from conditional to full.

Chemistry Assessment

Strain specific identification of *P. agglomerans* strain C9-1 is achieved by its resistance to antibiotics rifampicin and streptomycin, and by polymerase chain reaction (PCR) analyses using repetitive BOX and Enterobacterial Repetitive Intergenic Consensus (ERIC) primers.

Health Assessments

A health assessment was not required since there was no change to the formulation.

Environmental Assessment

An environmental assessment was not required since there was no change to the formulation.
