

Evaluation Report for Category B, Subcategory 3.2 Application

Application Number: 2021-1978
Application: Changes to Product Labels – Application Timing
Product: CONTANS WG
Registration Number: 29066
Active ingredient (a.i.): *Coniothyrium minitans* strain CON/M/91-08
PMRA Document Number: 3300044

Purpose of Application

The purpose of this application was to amend the label statements for non-refrigerated storage of the microbial fungicide CONTANS WG.

Product Characterization and Analysis

Data were provided to support the following non-refrigerated storage intervals for CONTANS WG: 3 weeks, when stored at 15°C; 2 weeks, when stored at 20°C; and 3 days, when stored at 30°C. No further information was required to complete the product characterization and analysis database for CONTANS WG.

Health, Environmental and Value Assessments

Health, environmental and value assessments are not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided and has found it sufficient to support the amendments to the product label for CONTANS WG.
